Contents of Vol. 58

No. 1

L.N. Thibos, W.R. Levick: Orientation bias of brisk-transient y-cells of the cat retina for drifting and alternating gratings 1
F. Schenk, R.G.M. Morris: Dissociation between components of spatial memory in rats after recovery from the effects of retrohippocampal lesions 11
G. Guilbaud, A. Iggo, R. Tegnér: Sensory receptors in ankle joint capsules of normal and arthritic rats 29
F. Baldissera, P. Campadelli, L. Piccinelli: The dynamic sensitivity of pyramidal tract neurones is influenced by previous activity 41
M.S. Starr, M. Summerhayes: Dysfunction of the midbrain angular complex can accentuate or attenuate circling behaviour in the rat 45
D.L. Morgan, A. Prochazka, U. Proske: Action of single dynamic fusimotor neurones on cat soleus Ia afferents during muscle shortening 56
A. Brodal, P. Brodal: Observations on the secondary vestibulocerebellar projections in the macaque monkey . . 62
G. Spidalieri, G. Franchi, P. Guandalini: Somatic receptive-field properties of single fibres in the rostral portion of the corpus callosum in awake cats 75
J.H.J. Allum, C.R. Pfaltz: Visual and vestibular contributions to pitch sway stabilization in the ankle muscles of normals and patients with bilateral peripheral vestibular deficits 82
B. Wiksten: Retrograde HRP study of neurons in the cervical enlargement projecting to the cerebellum in the cat 95
C.I. Palmer, W.B. Marks, M.J. Bak: The responses of cat motor cortical units to electrical cutaneous stimulation during locomotion and during lifting, falling and landing . . 102
N. Hernandez-Mesa, Z. Mamedov, J. Bureš: Operant control of the pattern of licking in rats 117
D.J. Price: Patterns of cytochrome oxidase activity in areas 17, 18 and 19 of the visual cortex of cats and kittens 125
G. Ahlsén, S. Lindström, Fu-Sun Lo: Interaction between inhibitory pathways to principal cells in the lateral geniculate nucleus of the cat 134
J. Seal, D. Commenges: A quantitative analysis of stimulus- and movement-related responses in the posterior parietal cortex of the monkey 144
G.F. Martin, R.P. Vertes, R. Waltzer: Spinal projections of the gigantocellular reticular formation in the rat. Evidence for projections from different areas to laminae I and II and lamina IX 154
H. Björklund, M. Eriksdotter-Nilsson, D. Dahl, G. Rose, B. Hoffer, L. Olson: Image analysis of GFA-positive astrocytes from adolescence to senescence 163
W.M. Steedman, V. Molony, A. Iggo: Nociceptive neurones in the superficial dorsal horn of cat lumbar spinal cord and their primary afferent inputs 171
S.M. Wharton, J.N. Payne: Axonal branching in parasagittal zones of the rat olivocerebellar projection: a retrograde fluorescent double-labelling study 183
J.P. Aggleton, M. Mishkin: Mamillary-body lesions and visual recognition in monkeys 190

Research Notes

K.J. Renner, A. Biegon, V.N. Luine: Sex differences in long-term gonadectomized rats: monoamine levels and [^{3}H]nitroimipramine binding in brain nuclei 198
G. Charton, C. Rovira, Y. Ben-Ari, V. Leviel: Spontaneous and evoked release of endogenous Zn^{2+} in the hippocampal mossy fiber zone of the rat in situ 202
D. Price, T. Zumbroich: Horseradish peroxidase cross-reacts during cytochrome oxidase histochemistry 206
J. Schlag, M. Schlag-Rey: Unit activity related to spontaneous saccades in frontal dorsomedial cortex of monkey . . . 208
Announcement: 212

No. 2

S.S. Mokha, J.A. McMillan, A. Iggo: Descending control of spinal nociceptive transmission. Actions produced on spinal multireceptive neurones from the nuclei locus coeruleus (LC) and raphe magnus (NRM) 213
A.D. Craig, H. Burton: The distribution and topographical organization in the thalamus of anterogradely-transported horseradish peroxidase after spinal injections in cat and raccoon 227
Yu. I. Arshavsky, I.N. Beloozerova, G.N. Orlovsky, Yu. V. Panchin, G.A. Pavlova: Control of locomotion in marine mollusc *Clione limacina*. I. Efferent activity during actual and fictitious swimming 255
Yu. I. Arshavsky, I.N. Beloozerova, G.N. Orlovsky, Yu. V. Panchin, G.A. Pavlova: Control of locomotion in marine mollusc *Clione limacina*. II. Rhythmic neurons of pedal ganglia 263
Yu. I. Arshavsky, I.N. Beloozerova, G.N. Orlovsky, Yu. V. Panchin, G.A. Pavlova: Control of locomotion in marine mollusc *Clione limacina*. III. On the origin of locomotory rhythm 273
Yu. I. Arshavsky, I.N. Beloozerova, G.N. Orlovsky, Yu. V. Panchin, G.A. Pavlova: Control of locomotion in marine mollusc *Clione limacina*. IV. Role of type 12 interneurons . 285
G. Curio, O.-J. Grüsser: Visual-vestibular interaction studied with stroboscopically illuminated visual patterns . . 294
G.I. Zahalak, R. Pramod: Myoelectric response of the human triceps brachii to displacement-controlled oscillations of the forearm 305
M. Gioia, G. Tredici, R. Bianchi: A Golgi study of the periaqueductal gray matter in the cat. Neuronal types and their distribution 318
D.R. Curtis, R. Malik: The differential effects of baclofen on segmental and descending excitation of spinal interneurones in the cat 333
D. Tanaka jr., S.T. Sakai: Corticostriate projections from area 6 in the raccoon 338
E. Irle: Combined lesions of septum, amygdala, hippocampus, anterior thalamus, mamillary bodies and cingulate and subicular cortex fail to impair the acquisition of complex learning tasks 346
L. Lescaudron, A. Verna: Effects of chronic ethanol consumption on pyramidal neurons of the mouse dorsal and ventral hippocampus: a quantitative histological analysis . . 362
K. Elisevich, A.W. Hrycyshyn, B.A. Flumerfelt: Supramedullary projections to the dorsal and ventral divisions of the paramedian reticular nucleus in the cat 368
G. Holstege, L. Meiners, K. Tan: Projections of the bed nucleus of the stria terminalis to the mesencephalon, pons, and medulla oblongata in the cat 379
W.T. Newsome, R.H. Wurtz, M.R. Dürsteler, A. Mikami: Punctate chemical lesions of striate cortex in the macaque monkey: effect on visually guided saccades 392

Y. Iwamura, M. Tanaka, M. Sakamoto, O. Hikosaka: Diversity in receptive field properties of vertical neuronal arrays in the crown of the postcentral gyrus of the conscious monkey 400
Y. Iwamura, M. Tanaka, M. Sakamoto, O. Hikosaka: Vertical neuronal arrays in the postcentral gyrus signaling active touch: a receptive field study in the conscious monkey 412

Research Notes

T.P. Hicks, W.D. Ruwe, W.L. Veale, J. Veenhuizen: Aspartate and glutamate as synaptic transmitters of parallel visual cortical pathways 421
Erratum: 426
Announcement: 426

No. 3

D.P. Crewther, S.G. Crewther, B.G. Cleland: Is the retina sensitive to the effects of prolonged blur? 427
J. Feldon, J.N.P. Rawlins, J.A. Gray: Fornix-fimbria section and the partial reinforcement extinction effect 435
A. Mori, R.S. Babb, R.S. Waters, H. Asanuma: Motor effects produced by stimulation of secondary somatosensory (SII) cortex in the monkey 440
D.P. Phillips, J.R. Mendelson, M.S. Cynader, R.M. Douglas: Responses of single neurones in cat auditory cortex to time-varying stimuli: frequency-modulated tones of narrow excursion 443
D. Guitton, H.A. Buchtel, R.M. Douglas: Frontal lobe lesions in man cause difficulties in suppressing reflexive glances and in generating goal-directed saccades 455
M.A. Matthews: Transplantation of fetal lateral geniculate nucleus to the occipital cortex: connectivity with host's area 17 473
S.S. Warton, D.G. Jones: Postnatal development of the superficial layers in the rat superior colliculus: a study with Golgi-Cox and Klüver-Barrera techniques 490
D.W. Sirkin, Y. Zedek, P. Teitelbaum: Effects of pontine reticular formation lesions on optokinetic head nystagmus in rats 503
C. Darlot, P. Denise, J. Droulez: Modulation by horizontal eye position of the vestibulo-collic reflex induced by tilting in the frontal plane in the alert cat 510
N.C. Campbell, D.M. Armstrong: Origin in the medial accessory olive of climbing fibres to the x and lateral c1 zones of the cat cerebellum: a combined electrophysiological/WGA-HRP investigation 520
P. Heil, H. Scheich: Quantitative analysis and two-dimensional reconstruction of the tonotopic organization of the auditory field L in the chick from 2-deoxyglucose data . . . 532
G. Abbruzzese, A. Berardelli, J.C. Rothwell, B.L. Day, C.D. Marsden: Cerebral potentials and electromyographic responses evoked by stretch of wrist muscles in man 544
U. Yinon, A. Hammer: Optic chiasm split and binocularity diminution in cortical cells of acute and of chronic operated adult cats 552
T. Klockgether, M. Schwarz, L. Turski, S. Wolfarth, K.-H. Sontag: Rigidity and catalepsy after injections of muscimol into the ventromedial thalamic nucleus: an electromyographic study in the rat 559
P.A.T. Kelly, F.H. Gage, M. Ingvar, O. Lindvall, U. Stenevi, A. Björklund: Functional reactivation of the deafferented hippocampus by embryonic septal grafts as assessed by measurements of local glucose utilization 570
L.D. Abraham, G.E. Loeb: The distal hindlimb musculature of the cat. Patterns of normal use 580
L.D. Abraham, W.B. Marks, G.E. Loeb: The distal hindlimb musculature of the cat. Cutaneous reflexes during locomotion 594

Research Notes

A. Valberg, B.B. Lee, D.A. Tigwell, O.D. Creutzfeldt: A simultaneous contrast effect of steady remote surrounds on responses of cells in macaque lateral geniculate nucleus . 604
M. Sakai: Dendritic bundles formed by layer VI pyramidal cells in the monkey frontal associated cortex 609
W. Fries, K. Keizer, H.G.J.M. Kuypers: Large layer VI cells in macaque striate cortex (Meynert cells) project to both superior colliculus and prestriate visual area V5 613
Conference Abstracts: O.D. Creutzfeldt, J.C. Eccles, Chr. Fromm, M. Wiesendanger: Cerebral events in voluntary movement: the supplementary motor and premotor areas . A1
